

## NOTICE TO RESIDENTS & CONTRACTORS

**Are You Planning to Dig?** Are you putting in fence posts, planting a tree, excavating for a pool, deck or a new addition? Before you dig, it is important to locate utility lines. It is your responsibility to contact the local utilities.

**Stratford is now a member of Ontario One Call.** Previously, requests for water and sewer locates were made directly to the City of Stratford, separate from other requests for gas pipeline and telephone line locates who are already part of Ontario One Call. Now as of October 3, 2011, you can call Ontario One Call, who will forward your request to the City of Stratford, as well as to its other member utilities.

**When to call?** Call the Ontario One Call Utility notification service at least one week before you dig at 1-800-400-2255. We would recommend 21 days notice, especially in the particularly busy spring and summer months.

**NOTE: You MUST still make separate arrangements with other utility companies such as Festival Hydro and Rogers Cable.**
