MEDIA RELEASE

For Immediate Release

The City of Stratford Among the Best in the World!

The Intelligent Community Forum awarded the Intelligent Community of the World to of Eindhoven, Netherlands. Stratford is proud and honoured to have made it to the Top 7 on the planet and congratulates Eindhoven on being named the 2011 Top Intelligent Community.

“We feel like winners here in New York”, said Mayor Dan Mathieson. “For a small community of 32,000 to make it to the Top 7 and to be in the company of these other cities is an honour and a recognition of the energy and investment we are making in re-inventing ourselves yet again. We are proud to be in the company of these outstanding communities.

Stratford was the smallest community in the competition. As the ICF noted in their previous remarks, “Stratford is a community that pulls above its weight.”

Being in the Top 7 brings international attention and is part of our strategy to diversify our economy and attract important investment in Stratford for the digital economy.

The selection of the Intelligent Community of the Year culminates the 12-month cycle of the Intelligent Communities Awards.
